

HUMLY ROOM DISPLAY, A TIMELESS BOOKING SOLUTION

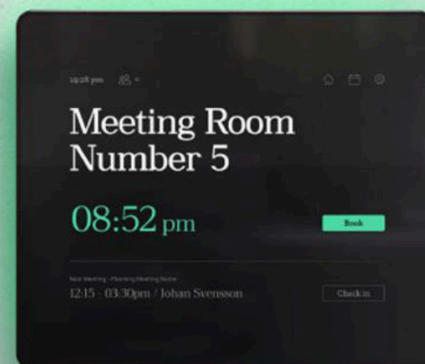

Studies show that 70% of office workers spend more than 15 minutes every day looking for meeting rooms. 24 % spend more than 30 minutes. Another study shows that an average office worker wastes about 3 hours each week due to meetings that do not start on time.

Together that is about 10% of a work day wasted for every office worker, every day. Humly is developed to give some of that wasted time back.

HUMLY ROOM BOOKING

COUNTLESS POSSIBILITIES

- Upload logo
- LED colors can be adjusted as desired
- Multilingual
- Clear and simple use
- Place service messages
- Manage meetings on display

HUMLY BOOKING DEVICE

**Book anything, anywhere,
For a more flexible office.**

Adaptable to meet the changing requirements of the hybrid workplace. The display can show whether a space or desk is available or not. Tapping on the touch screen allows anyone to book what they need on the spot. The combination of a compact design and high-resolution screens makes the Humly Booking Device extremely versatile. Mount your Humly Booking Device on anything you wish people to be able to book.

- Desk booking
- Meeting rooms
- Focus rooms
- Phone booths and flexible workplace modules
- Co-working spaces and social spaces
- Cars and parking spaces
- ... and anything else you can think of

HUMLY WAYFINDING

Intuitive and efficient

Inspired by airports, Humly Wayfinder combines simplicity with efficiency. Directions within seconds. No maps to pour over. The information can be shown on any screen or system with a web browser.
